Sorry, yes, they have been adjusted . Not sure how they made the last ones work but there is a slight adjustment to a number of the holes. Just enough to not be able to make the old ones work apparently

Regards,

Linda

Please find attached the DXFs and drawings for some revised Hawker parts. Not sure how long it's going to take to get these all approved and released, but Eagle needs the parts for another aircraft that they are putting together.

They are looking for Qty 2 of the D412-785-003-401 and Qty 6 of the D412-785-003-403. If you send them to my attention I'll get them where they need to go. No certs required, just the parts. No painting required, just alodined.

Let me know if you need more info.
